DO AI CHOOSE YOU?

AI Visibility Audit

Get found, cited, and recommended by ChatGPT, Perplexity & Google AI

Slipdock

Developer hosting · London
Audited URL: https://slipdock.ai/
Generated: 10/30/2026, 1:44:29 PM

88 / 100 AI-visibility score

Grade: B

Pages crawled: 12

2 measured findings + 3 general opportunities

P1 · MEDIUM IMPACT

Question-style FAQ content

Add an FAQ section answering 5-8 natural-language questions (matches how people ask ChatGPT/Perplexity).

P2 · LOW IMPACT

Contact phone discoverable

Display a phone number in body text so AI engines can cite it.

GENERAL OPPORTUNITY

General AI-visibility opportunity

Claim and complete your Google Business Profile; keep name, address and phone identical to the site so AI local answers cite you.

GENERAL OPPORTUNITY

General AI-visibility opportunity

Add an FAQ section answering the questions your customers actually ask, then mark it up with FAQPage JSON-LD.

GENERAL OPPORTUNITY

General AI-visibility opportunity

Add customer testimonials with Review/AggregateRating schema on the pages that describe each service.

Fix them yourself — or hand the list to us

The fixes above are the changes most likely to improve how AI assistants describe Slipdock. Some are easy to do alone — we've marked the effort. Others want a developer, and most owners don't have one on speed dial.

If you'd rather not do it yourself, the AI Visibility Fix-It is our implementation service: we make the fixes this report recommends, on your site, in about 72 hours of your go-ahead. Not a template, not a retainer — the exact changes for Slipdock.

What we implement (whichever your report recommends): schema & FAQ markup · an llms.txt file · answer-format rewrites of key pages · a clean citation-source page · a Google Business Profile guidance doc you can action step by step.

$799 one-off. No retainer. If you'd like the audit and the AI Visibility Fix-It together, the bundle is $999 (separately they're $1,098). We start only after you grant site access, and you only pay if you choose this — the report is yours either way.

Straight talk: these changes improve your odds of being described accurately and cited by AI systems. Nobody can guarantee rankings or placements — including us. Agencies sell the same category of work as retainers that typically start around $1,500/month; this is that work, productised to the five things your report actually recommends.

Want it done for you? Reply to the email this report arrived with (or support@visiblebyagents.com) with "Fix-It please" and we'll send the payment link and the site-access steps. No decision needed today — fixes don't expire.

Full Technical Breakdown

' HTTPS enforced
Site served over https (weight 12)

' Title tag present & descriptive
Title: "Slipdock — infrastructure your agent can actually buy" (53 chars) (weight 8)
